

Buckingham's Edible Woodland

Imagine picking and eating fruit, berries and herbs, whilst ambling down winding paths, by the river Ouse. Surrounded by trees, bushes, and plants. Experiencing changes with the seasons, each visit is a discovery.

A space to breathe, a place to unwind...

A natural woodland in the heart of Buckingham. Created and maintained by you and I, the residents of Buckingham.

The council have given us the freedom to create something ourselves, with some funding, and working with local groups.

We're creating a garden designed as a multi-layered ecosystem, designed along the principles of a natural woodland.

Come along and be a part of it...
